

## 6 Months of Achievements

---

The NEFERTITI project has completed 18 months of impactful research and innovation, marking a period of significant achievements.

During the 6M meeting, the Work Package Leaders presented the progress achieved within each Work Package

and all the achieved milestones as well as their work plans for the next six months.

Furthermore, the presenters were called to reply to the partners questions and clarifications, where the consortium partners also discussed about their concerns, barriers and other thoughts, about their future research for the better success of the project.

---

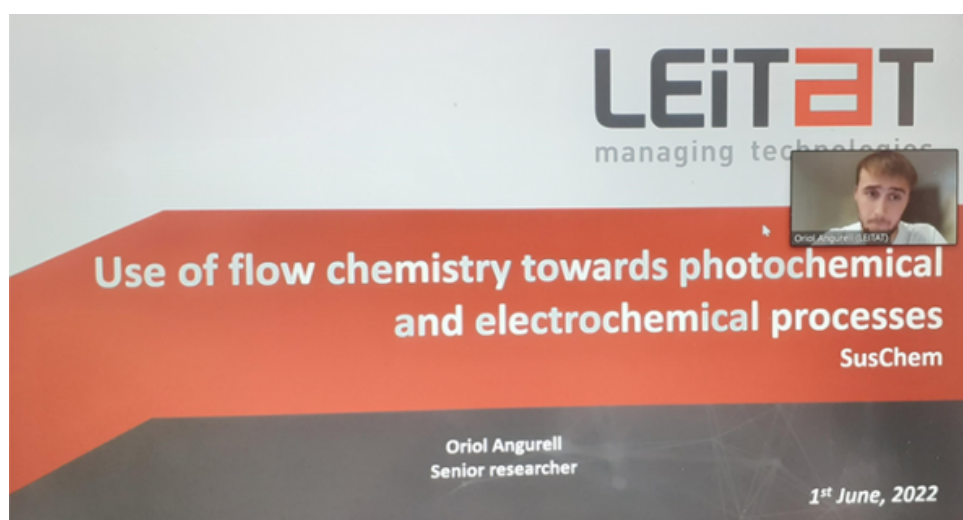

## SUSCHEM online conference!

---

LEITAT, NEFERTITI Project's coordinator, actively participated in SUSCHEM conference, representing NEFERTITI project. This conference took place on the 6<sup>th</sup> of January 2022, in Spain.

Presentation's title: ***"Use of flow chemistry towards photochemical and electrochemical processes"***.

The main aim of this presentation was to widespread the project's overview, as well as its most important objectives, to an audience of more that 30 individuals, coming mainly from the scientific sector.
